

[A Classic Mexican Villa on Manzanillo Bay](#)

One-bedroom, beachfront home hand crafted from brick, mortar, tile, tropical hardwoods, palapa and other natural materials, with large, fully-furnished kitchen, huge covered deck for dining and lounging, and large bath with shower open to the sky.

Each room, including the bath, has open vistas of Manzanillo Bay and the Pacific Ocean. The casita has inlaid mahogany floors with decorative rock border inlays, walls of polished and textured stucco with stone accents, recessed lighting, and a soaring viga and palm plank roof.

In the garden area to the rear is a smaller palapa roofed bungalow with a large bedroom and bath, small terrace and small complete kitchen, constructed of tropical hardwoods. Just a few steps away is a shaded patio with table, chairs and barbeque area. An additional storage area and laundry room is located at the rear of the property.

This is a large lot, 1600 square meters or over 17,000 square feet with 18.8 meters (almost 62 feet) of beach frontage. There is ample room on the lot for more construction if desired.

Price drastically reduced to \$675,000 US
